

Liederbach

Specializing in linkage design, we also provide light assembly and logistics services.

World-class fastener support and automotive linkage innovators

Key Products

PogoStik

HiPerStik

Sensor Linkage

Fastener Logistic Services

MacLean-Fogg
COMPONENT SOLUTIONS

Who we are

Founded in 2001 and specializing in the assembly and distribution of suspension components and fastener systems, our Liederbach location is also responsible for the European sales and distribution of all products from our U.S. plants.

What we do

Our product portfolio includes hybrid stabilizer linkages, especially PogoStik designs, adjustment linkages for headlight and leveling systems, and plastic-steel and rubber-steel combinations. We have engineering and development, quality assurance, production, logistics, sales and general administration on-site for product support and distribution of MacLean-Fogg fasteners.

Manufactured Products

PogoStik Suspension Linkage
HiPerStik Suspension Linkage
Sensor Linkage

Distributed Products

Decorex Stainless Steel Capped
Wheel Fasteners
Improved Lockthread Bolts and
Studs
High-Temperature / High-Vibration
Bolts and Studs
Prevailing Torque Nuts
Securex Heavy-Duty Wheel
Fasteners

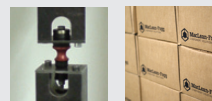

Industries Served

Automotive
Heavy-Duty Truck
Recreational Vehicles
Military and Defense
Industrial Solutions

Core Competencies

Linkage Design and Manufacturing
Logistic and Quality Services
